Black ditto	2s. 6d.	ditto ditto

In addition thereto the Yard quantities, and put on the Railway for all goods stations on the London and Brighton, and South-Eastern Railways, or lines connected with them. A fresh supply had from the kilns daily, at the Brickmakers Arms and Croydon Stations, and delivered to all parts.

Prices for Cash on delivery:—7s. per yard at the stations or works; 8s. per yard delivered within five miles; in not less than 5-yard quantities, Smoking, 1s. per yard; to be per yard off. If paid monthly, Collecting charged for. The Quality is warranted to be Best.—Address, Merstham, near Reigate, Croydon; or Tooley-place, Old Kent-road.

PORTLAND CEMENT of superior colour and hydraulic properties.
STAFFORDSHIRE VITRIFIED BRICKS.
GLAZED PIPES AND FIRE GOODS.
FREEMAN and RICHARDSON, 4, South Wharf, Paddington.

PORTLAND CEMENT, solely MANUFACTURED by WILLIAM ASPDIN, Son of the Patentee.—Messrs. BORING, ASPDIN, and Co. request reference to Nos. 288, pure oil; and also Nos. 294 and 295, pages 245 and 297 of "The Builder," for accounts of EXPERIMENTS on the strength of Portland Cements, wherein the great superiority of their Cement is manifest. This Cement has been proved for upwards of twenty years in the Thames Tunnel to resist the action of water; it is stronger in its cementitious qualities, harder, and more durable than any other description of Cement; it does not scratch, crystallize, or burn green; nor is it influenced by any atmospheric influence whatever, the climate, resisting alike the extremes of frost and heat. It is manufactured to set in from five to sixty minutes. For all purposes that Cement is applicable the Proprietors challenge competition.—Orders received by Messrs. ROBEVS, ASPDIN, and Company, at their Manufactory, Northfleet, Kent, and their Wharf, Great Scotland-yard, Whitehall; also at their Depôts, 68, Wanover-street, Liverpool.

PORTLAND CEMENT, as manufactured by J. B. WHITE and SONS, possesses all the properties of the best Roman Cement, but has the advantage over that material of wholly resisting frost. When used as a stucco it does not vegetate or turn green in damp situations, and resistance on colouring. Employed as an hydraulic mortar for brickwork, it carries from to five times more of sand to cement, and is proved by trial to become harder and stronger in these proportions than Roman Cement with but one measure of sand. This superior cementing power, combined with its eminently hydraulic properties, point it out as the finest material for building on and embankment walls, the flights of reservoirs, cisterns, and baths, and for all those purposes where strength and a perfect resistance to water are required.

Manufacturers—J. B. WHITE and SONS, Millbank-street, Westminster, and 6, Neal-street, Liverpool.

ATKINSON'S CEMENT.—This Cement has hitherto been manufactured in Yorkshire, and, through local attention at one, has often proved stale and unfit for use on its arrival in London. By the arrangement now made, the Cement will be manufactured in London, and thus presented to consumers in a fresh and genuine state, by the sole Agents, J. B. WHITE and SONS, Millbank-street, Westminster.

KEENE'S and PARIAN CEMENTS, for internal stucco, are employed very advantageously in place of wood for skirtings, architraves, and panel mouldings, and for indoor decorations, instead of stucco. The peculiar properties of PARIAN Cement allow of its being painted or papered upon within a few hours of its application, and thus render it an important substitute for common plastering in those cases where expedition and beauty of finish are essential.—J. B. WHITE and SONS, Millbank-street, Westminster, Patentees of KEENE'S Cement, Licensees of PARIAN Cement.

THE PARIAN CEMENT, for INTERNAL STUCCO.

No. 4, Porchester-terrace North, Paddington, 13th February, 1861.

Dear Sirs,—I have been induced to speak to the merits of Parian Cement, until sufficient experience enabled me to do so. As an extensive builder I have given it many trials, and now beg to express my perfect satisfaction with it. The house from which I date was first inhabited by me on 7th September last, not a brick having been laid before the 1st of June;—there is no cracking in three months and one week; I executed the walls throughout with Parian; papered some, painted and marbled others; and the whole work has been dry and perfect from that hour. I need say no more.—I am, Gentlemen, yours respectfully,

WM. SCANTLEBURY.

Messrs. Chas. Frances and Sons, Nine Elms.

JOHNS and Co.'s PATENT PERMANENT STUCCO WASH, CEMENT, and PAINT.—The attention of the trade and the public generally is solicited to these very excellent and well-known materials, which, for their beauty, durability, imperviousness, and cheapness are unequalled. THE PERMANENT WASH, as a substitute for common lime wash or water colour, is an article which has long been wanting for stucco and brick work; it is of a stone colour, but may be tinted to any other; is perfectly dry in twenty-four hours; will not wash off; is very little dearer than the common washes; and, being a non-absorbent, is admirably adapted for railway stations, union work-houses, schools, churches, prisons, &c. It is equally adapted to cover, with two coats, the square yards. THE CEMENT, from the great reduction in price, and its suitableness for internal as well as external surfaces, places it above all other materials of its kind; it has no caustic qualities; may be painted or papered in a few days; never blisters, cracks, or vegetates; soon becomes as hard as stone; and may be cleaned with a brush and water. The merits of the PAINT are well known for its application to stucco work of all kinds, and external work generally. Numerous testimonials, prospectuses, and every information may be obtained, on application to the Sole Agent, PHILIP HARE, at the Warehouse, 28, Steel-yard, Upper Thames-street. A liberal allowance to wholesale dealers.

MARTIN'S PATENT
FIRE-PROOF AND ORNAMENTAL CEMENT,
APPLICABLE FOR
ALL INTERNAL PURPOSES WHERE PLASTERING IS REQUIRED.

This invaluable Cement has now been before the public on many years, and obtained a high standing in the estimation of all who have used it. Still it is unnecessary to comment on the merits. Messrs. SEKYER and SON, however feel called upon to observe, that, from the greater extent of surface which a given quantity of MARTIN'S will cover, as compared with other Cements for internal use, there will be found a saving of 161 per cent. in material, full 7 per cent. less in price, with an additional saving in labour of 16 per cent.; for its adhesive qualities allow of about forty minutes for working, being less than a fourth of the time of other cements of a similar nature, therefore a clear saving of greater facility, making together the economy amount to full THIRTY-THREE PER CENT.; its advantages therefore cannot admit of doubt. Specimens, showing its beauty, hardness, and applicability on all plain and ornamental purposes, may be seen; and for Orders, in any quantity, obtained of Messrs. SEKYER and SON, at their Plaster and Cement Works, 188, Drury-lane, London.—Manufactory, Derwent Mill, Derby.

N.B. This Cement will receive paint or paper in a few hours after the completion of the work by the plasterers.

BELL'S PATENT LIQUID CEMENT.—Ready for use, on the front of houses, only one-eighth the cost of oil paint; for beauty it is pre-eminent, giving the appearance of fine cut stone. In casks of 1, 2, and 3 cwt., 14 lb., 14s. and 28s. each.

PATENT MINERAL PAINT, invaluable for cheapness, beauty, and permanence. Ready for use. Will stand any climate, and well calculated for exportation.

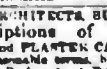
NEW ELASTIC PAINT for DAMP WALLS; an effectual remedy, inside or out. Will dry in a few hours, and may be papered over at once, if desired.—G. BELL and Co., Steam Mills, 2, Wellington-street, Goswell-street.

TO ARCHITECTS, BUILDERS, &c.

ALL descriptions of TERRA COTTA, CEMENT, and PLASTER CASTINGS executed in a first-rate manner, on reasonable terms, by J. HERBERT and SON, Modellers, &c., 43, Parker-street, Drury-lane. A splendid assortment of Corinthian, Ionic, and other Capitals; Cornice Flowers, Balloons, Frieses, &c.; Elizabethan and other Chimney Shafts.

PAVING, 2s. 9d. PER SQUARE YARD. Basements, Foot-walks, Wait-houses, Corn Stores, Floors of Warehouses, and every description of Pavement laid down at the above low price, and the work guaranteed.—Apply to JOHN PILKINGTON, INCORSEALD'S BITUMEN PAVEMENT OFFICE, 14, JOHN-STREET, ADELPHI.—N.B. Country Agents and Railway Engineers and Contractors supplied with the best bitumen for covering bridges and arches.

WHITE AND BROWN ORNAMENTAL LAVA



PATENT METALLIC LAVA,
Manufactured only by
Messrs. ORSI and ARMANI,

For the INTERIOR of CHURCHES, MUSEUMS, HALLS, WINTER GARDENS, CONSERVATORIES, &c. &c.; for Food Pavement, Flooring, Covering Railway Arches, Terraces, Roofs, &c. &c.

SAMPLES LAY FOR INSPECTION. List of Prices, and every Particular, may be obtained at the Office, 6, Guildhall Chambers, Basinghall-street, City; and at the Office of "The Builder."

MINTON and CO.'S ENCAUSTIC and other PATENT TILES for Churches, Entrance Halls, Conservatories, Balconies, &c., Antique, Geometrical, and Alhambric Mosaics, manufactures of a highly decorative character and extreme durability. Slabs and Tiles for Fireplaces and Hearths. Chimney Pieces for Grates. Door Furniture. White Glazed and Ornamental Tiles for Baths, Dairies, and Kitchen Ranges may be had in great variety at their Warehouses, 9, Albion-place, Blackfriars-bridge, London, and at their Manufactory, Stoke-upon-Trent, Staffordshire.

BRICKS.—In consequence of the low price at which Brickmakers have, for some time past, been purchasing Ashes and Breeze, H. DODD is enabled to offer his bricks, which are of good quality, at the following low prices; and as his fields are only a quarter of an hour's walk from the City, H. D. earnestly requests purchasers will favour him with a visit, in order to inspect his stock and to judge for themselves.

Marie Cutters	40s.	per thousand.
Yellow Seconds	32s. 6d.	"
Pale Seconds	30s.	"
Paviors	42s.	"
Picktops	18s.	"

Marie Place, Half-rubbed Bricks, and Place Bricks, at equally low prices. These bricks are sound, well burnt, and unusually free from defects; a very large proportion of the Stocks being suitable for external facing. They will be delivered at the above prices anywhere within two miles of the fields.

Apply to HENRY DODD and Co., at the Counting-house, Hoxton Brickfields, Orange-walk, near the Hackney Branch, Hoxton.

N.B. Red Pit Sand, of approved quality, constantly on sale, upon reasonable terms. In the erection of walls, where it is desirable that the work should be kept as free from damp as possible, this sand, from its not containing any saline matter, is acknowledged to be preferable to river sand.

STIRLING'S BELVEDERE SLATE WORKS, Belvedere-road, Lambeth.—A reduced list of prices of the best WELCH SLATE SLAB, placed both there, will be sent on application (post paid) being made, and inclosing a postage stamp. The prices are under those advertised for inferior slates.

THE PIMLICO SLATE WORKS.—Patronized by Royalty, the Heads of the Nobility, the Clergy, Architects of Eminence, Builders, Railway Contractors, and the Public generally.—MAGNUS'S ENAMELLED SLATE, notwithstanding the vile imitations and infringements of his patent that are attempted, continues to grow in favour with the public, being handsomer, more durable, and very much cheaper than marble.—Price lists sent to any part of the kingdom gratis, and a book of drawings sent postage free on receipt of 2s. in postage stamps. Cisterns, Filters, Dairy and Larder Shelves, Wine Cellar Fittings, Slabs, and every variety of plain Slate Work, at prices that defy competition.—48 and 50, Upper Belgrave-place.

VALENTIA SLATE SLABS.—The VALENTIA SLAB COMPANY respectfully invite attention to their very superior SLABS. By an improved method of sawing they have been able to ensure greater truth and smoothness of surface than had hitherto been considered attainable, and at the same time materially to reduce the prices of the article.

London Prices per foot for Slabs, Room or Planed, and with Open Edges:—

May be had of all respectable Ironmongers throughout the kingdom, or wholesale only at MR. JAMES ARTHUR MILES'S Brass Foundry Warehouse, 13, Paternoster-lane, Queen-street, Cheapside, London.

PATENT WHITE ZINC PAINT.—JOHN WARNER and SONS are prepared to supply this paint to builders, painters, and plumbers, on wholesale terms. It is free from all poisonous qualities; it is unaffected by sea water, sulphuretted hydrogen, or any of the gases; and preserves its original colour; where white lead paint will not.—Prospectuses to be had at J. Warner and Sons', 8, Cresscent, Jewin-st., London.

HUBBUCK'S PATENT WHITE ZINC PAINT.—ANNOUNCEMENT.

For MARINE USES, it possesses the following advantages:—It is whiter than any other Paint, and retains this whiteness for years, unaffected by bilge-water, or noxious vapours from cargo. The White Paint in the hold of a ship, after discharging a cargo, is found to be as white as the year before, when newly painted. Under these and other circumstances, when every other paint hitherto known and tried has failed, the "White Zinc Paint" has preserved the fastness of its colour. Moreover, by virtue of its galvanic action on iron, it enters the pores, and forms an amalgam of the two metals, which protects the iron from rust, decay, or incrustation.

For the GENERAL PURPOSES of the decorative painter, the "White Zinc Paint" has been found unparalleled in whiteness, clearness of colour, durability, and beauty of texture. It becomes so hard as to admit of polishing equal to the finest coach panelling.

For SANITARY PURPOSES the "White Zinc Paint" is valuable, not only from its being totally free from every ingredient injurious to health, but from its combining chemical qualities which render it a powerful corrective where contagious diseases have prevailed; furthermore, buildings painted with it are at once disinfected. Paralysis and Painters' Colic are avoided by its use, as well as similar results to the occupants of newly painted rooms. Apartments may be immediately occupied, without injury to the health of children or the most delicate constitution. It becomes cheaper than common paint, from its spreading over a much larger surface. 2 cwt. of this paint covers as much as is usually covered by 3 cwt. of white lead. Each cask is stamped with the name "Hubbuck—London—Patent," as the style of the Manufacturers. A circular with full particulars may be had of the manufacturers, THOMAS HUBBUCK and SON, Colour Works, opposite the London Docks.
